

A Celebration of Life of Judith Milne Furr

God made it dark so I can sleep
He made the moon and stars their watch to keep
He made it light for me to see
The beauty of this earth so wide and free

He planted trees to give me shade
And cool soft grass as green as jade
He set out rivers, streams and oceans wide
So I could drink and play and ride

He added bright colors in flower faces
And put great rocks in proper places
He made the butterflies, birds and bees
To flit around among all these

He made animals tame and wild
And thinks of each as His own child
To think He did all this for me
I should say "Thank you" most certainly.
